

# Lewis & Clark Summer Expedition

You begin your journey up the Missouri River. Read a little bit about the boats they took up the river at <http://www.greatriverroad.com/lewclark/boats.htm> or <http://lewis-clark.org/content/content-article.asp?ArticleID=496> Then choose:

- A. Try kayaking or canoeing to imagine what it might have been like or
- B. Make a paper boat or stick raft and float them down a stream, at the beach, or in your tub.

Think about what it might have been like traveling by boat so many years ago. Write about it in your journal.
