

# Lewis & Clark Summer Expedition

## South Dakota

This week, as we head into South Dakota, we start thinking about Sacagawea and the many other Native Americans the expedition encountered during their travels. Now choose:

- A. Visit a local Native American Indian museum or research the first people in your state.
- B. Learn a little bit of a native language. We'll try Ho-Chunk this summer: <http://hocak.info/mysite/PhraseLink.htm>
- C. Play "Telephone" to see how hard it must have been for Lewis and Clark to communicate accurately when messages sometimes had to go through 3 or more different languages.

Write about your experience in your Lewis & Clark journal.
