

# Lewis & Clark Summer Expedition

We made it to the end of the expedition!

- Read about Fort Clatsop, how they chose the location, built the fort and spent the winter.
- Print or buy a map of your city, county or state. Or if you've been particularly busy, a map of the country. With stickers or a marker, mark all the places you journeyed to during these ten weeks so you can see the scope of your own expedition.
- Write about your favorite part of the Lewis & Clark Summer Expedition in your journal. Would you do it again?
